

Compactor 120

CP120 Industrial & catering compactor

The CP 120 waste compactor fulfils the greatest of demands. In a practical, clean and effective manner mountains of waste are reduced by up to 80% into compact and easy to transport packs.

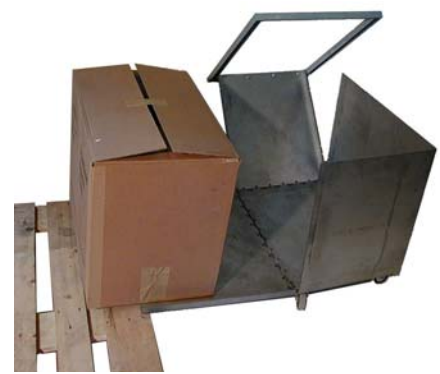

The CP120 has proven itself for more than 25 years and become an indispensable labour-saving device for the catering trade, nursing homes, hospitals and in trade and industry.

- ◆ **Sturdy steel casing**
- ◆ **Simple to operate**
- ◆ **Pressure force 12 tonnes**
- ◆ **Volume reduction up to 80%**
- ◆ **Wheeled waste container**

Technical Data

Height	1800 mm
Breadth	775 mm
Depth	570 mm
Weight	480 kgs
Colour	blue
Pressure force	12 tonnes
Motor (3 x 400V / 50Hz)	1.5 KW
Filling opening	600 x 450 mm
Waste container volume	120 litres
Electronic door monitoring	
Various accessories	

The waste is directly compacted in a cardboard box within the waste container. This guarantees a clean and simple disposal of the compacted waste.

A cardboard box (400x 500 x 600 mm) holds 120 litres and is conceived for use with pallets, as well for container transportation.
